Exhibition overview

This is the 32nd Annual Scientific Meeting of the ESMRMB. The focus is on integration and collaboration: between clinicians and physicists, between junior and senior researchers, and between the fundamental and applied sciences. In addition to interactive scientific sessions and dedicated networking opportunities, there is an educational programme highlighting both well established and novel MRI techniques and applications. Traditional highlights can again be found in the programme, such as the Sir Peter Mansfield Lecture, the Hot Topic Debate, and the Roundtable Discussion.
