

British NeuroPsychiatry Association Annual General Meeting

27 - 28 February 2014, London

Anticipated attendance: 300 delegates

Delegate profile: Psychiatrists, neurologists, neuroscientists

Conference code: BNPY14

Meeting website: www.bnpa.org.uk

Exhibition address:

UCL Institute of Child Health
30 Guilford Street

London WC1N 1EH

Exhibition overview

The British NeuroPsychiatry Association (BNPA) is the principal academic and professional body for medical practitioners and professionals allied to medicine working at the interface of the clinical and cognitive neurosciences and psychiatry.

The aims of the BNPA are to:

- provide a forum for the exchange of ideas related to neuropsychiatry
- encourage and facilitate cross-disciplinary discussion of clinical and academic issues of common interest
- create a platform for the presentation of ideas and research findings through its open meetings

Focus of interest: activities reflect and cater for a membership spanning the fields of psychiatry, neurology and neuropsychology, and the various related clinical and basic neurosciences.

Membership is thus open to medical practitioners in psychiatry, neurology and related neurosciences, e.g. neurophysiology, neurosurgery, neuroradiology, neuropathology, neuropsychopharmacology; to postgraduate psychologists working in clinical or experimental fields related to psychiatry or neurology; and to postgraduate laboratory workers in the neurosciences. Members are primarily located within Great Britain.

Exhibition details
