Exhibition overview

The SCTS's annual meeting welcomes all health professionals involved in cardiothoracic surgery from the UK and overseas. An important feature over recent meetings has been the development of the Cardiothoracic Forum, which is designed to focus on cardiothoracic practice and encourages non-medically qualified members of the cardiothoracic team to make contributions.

In 2015 the SCTS's annual meeting is to be held jointly with the Association of Cardiothoracic Anaesthetists (ACTA).
