Exhibition overview

The last Dual Disorders Congress attracted over 2000 delegates coming from 70 countries, and consisted of 170 lectures and symposia, 123 oral presentations and 322 poster presentations. The aim of the 2017 Congress is to consolidate a platform on which professionals in the field of mental health and addictions, together with main opinion leaders in this area, can review and share recent knowledge and developments in a dynamic and interactive way.

The themes to be addressed are the etiopathogenesis, diagnosis and therapeutics of Dual Disorders, from molecular biology to daily clinical practice and from prevention strategies to recovery programs.

Further details about the program are [available](#).
