Exhibition overview

The European Society of Endocrinology was created to promote research, education and clinical practice in endocrinology through the organisation of conferences, training courses and publications, by raising public awareness, liaison with national and international legislators, and through any other appropriate means. Major activities include the organisation of the European Congress of Endocrinology.

The 16th European Congress of Endocrinology (ECE 2014) will take place in Wroclaw, Poland in May 2014. It is set to attract over 3000 delegates from all areas of endocrinology and from over 90 countries, including clinicians, nurses, basic researchers, fellows and trainees – all experts and key opinion leaders in the field of endocrinology.
