Exhibition overview

The Congress is being held in partnership with the UK Renal Association and other international Societies. As ever, it will allow for major coverage of the main clinical areas of interest for practicing nephrologists and it will also feature cutting-edge scientific discoveries. Translational research has as usual a prominent part in the programme, and special thought and attention has been paid to chronic kidney disease, geriatric nephrology, and other important clinical areas.

Exhibition details

During the entire Congress a particular focus will be provided on two scientific themes: 1) Chronic Kidney Disease - Renal Replacement Therapies and 2) Aging and the kidney. Exceptional speakers will present the three plenary lectures: 1) Longevity and metabolism Johan Auwerx (Switzerland) 2) Transplantation: the past, present and the future Mohamed H. Sayegh (Lebanon/USA) 3) Stem cells and pluripotency: mechanisms of reprogramming and gene targeting in ES cells and mice George Daley (USA) Moreover, 55 symposia and 32 mini-lectures will present the most recent advances in nephrology, integrating basic science with the clinical context, looking at new risk factors, early biomarkers and new therapeutic perspectives.
