## Exhibition overview

The congress will be a truly international event focusing on the topic “Platelet pathology and vascular medicine”. The scientific program will showcase the most recent advances in basic research and translational clinical science. A state-of-the-art update in all major hemostatic topics will complement the broad scientific program.

Along with a series of excellent plenary lectures and state-of-the-art symposia, a new category of clinical how-to-treat symposia and clinical pro and contra sessions are being introduced for 2015, which will discuss some of the latest clinical controversies illustrated by interesting clinical cases.
