Exhibition overview

This biennial conference promises once again to provide a unique platform for the dissemination of the most relevant and cutting edge science and innovation in the field of head and neck oncology.

The meeting will specifically cover the main following topics:

New insights in the epidemiology and prevention of cancer

Oncogenesis, HPV related cancers, immunology and vaccination

Updated results of practice changing randomised trials

Multidisciplinary management of cancers

Molecular targeted therapies and molecular imaging

Novel radiation and surgical treatments

Towards individualised management of cancer

Robotic and minimally invasive surgery

Reconstructive and salvage surgery

Elderly patients, co-morbidities and their impact on management

New insight in systemic treatments of cancers

Thyroid, nasopharynx cancers and rare cancers

Quality of life, supportive care and management of treatment side effects.

The format of the meeting will include prestigious invited ‘state of the art lectures’; lectures on the latest innovative approaches; proffered papers and poster presentations of new data in the field of head and neck oncology. The programme will be enriched by pro and contra debates and interactive tumour board sessions where the audience will have the possibility to participate and share their input via an electronic voting system. There will be also a special focus on presentations of new data from practice changing randomised trials.
