Delegate profile: Gynaecologists and urologists

Conference code: MENO17

Meeting website: www.emas-online.org

Exhibition address:

RAI Amsterdam

Europaplein

NL 1078 GZ Amsterdam

The Netherlands

Exhibition overview

The theme of the 2017 Congress is “**Empowering a personalized approach towards healthy aging**”.

Longevity in our modern world is not a benefit unless it is accompanied by good quality of life. Menopause and andropause are natural processes. However we need to reflect about the next decades of life. The main goal of the congress is to empower strategies for healthy aging. This requires a holistic multidisciplinary approach with the contribution of many specialties including gynecology, urology, cardiology, internal medicine, geriatrics, sexual medicine, occupational health and basic science.

Plenary lectures, parallel sessions, practical interactive courses and Scientific Society symposia will cover all these topics. Opinion leaders and scientists from all over the world will share their expertise and experience. This will stimulate active dialog between speakers and participants.

Exhibition details

Topics to be discussed include:

Topics

Ageing

Androgens

Andropause

Androgen replacement therapy in midlife and beyond

Assisted reproduction

Benign Gynecology

Biomarkers

Body composition

Brain aging

Breast cancer and screening

Cancer prevention

Cardiovascular disease

Climacteric symptoms

Complementary and alternative medicine

Contraception

Cognition and dementia

Cross-cultural differences

Depression and anxiety

Diabetes

Diet, dietary supplements and lifestyle

Drug development

Endocrine disrupters

Endocrinology

Endometrium

Epidemiology

Erectile dysfunction

Estrogens

Exercise

Fertility

Frailty

Gender differences in chronic disease

Gerontology and geratology

Gynaecological oncology

Gynaecological endocrinology

Health and social care

Hormone therapy

Hypogonadism

Late onset hypogonadism

Men's health

Menopause

Menopausal hormone therapy

Metabolic syndrome

Migraine

Mood

Mortality

Nutraceuticals

Occupational Medicine

Obesity and weight management strategies

Osteoarthritis

Osteoporosis and skeletal health

Ovarian ageing

Pelvic floor health

Polycystic ovary syndrome

Premature menopause

Quality of life

Sarcopenia

Sex steroids, selective estrogen receptor modulators, selective progesterone receptor modulators

Sexual health

Skin aging

Sleep disorders

Stem cells

Surgical innovation

Urinary incontinence

Urogenital ageing

Urogynaecology

Vitamin D

Women's Health
