Conference code: PATH16

Meeting

website: <http://www.esp-congress.org/2016>

Exhibition address:

Congress-Centrum Ost Kolhnmesse

Cologne

Germany

Exhibition overview

The XXXI International Congress of the International Academy of Pathology and the 28th Congress of the European Society of Pathology will for the first time be organised as a joint venture.

The motto of the Congress – Predictive Pathology, Guiding and Monitoring Therapy – indicates the future role of pathology as a strong partner for the different clinical specialties.

The scientific programme will include science, translational research and clinical application to provide delegates with information on recent research findings, new technologies and up to date education.

In addition to providing an interesting scientific and educational programme the IAP/ESP 2016 meeting will serve as a get-together for pathologists and scientists from all over the world in a friendly atmosphere.
