**Exhibition address:**

Athens

Greece

## Exhibition overview

The European Society of Gastrointestinal and Abdominal Radiology (ESGAR) is an educational and scientific organisation founded by radiologists working in close association with gastroenterologists, hepatologists, abdominal surgeons, pathologists, and other allied specialists. Its members have a special interest in the imaging and treatment of patients with diseases of the gastrointestinal tract and associated abdominal organs.

The Annual Meeting, the most important event of the Society's calendar, is held in a different European country each year and is devoted to the main theme of "Abdominal Imaging and Intervention".
