7th International Conference on Advanced Technologies and Treatment for Diabetes

5 - 8 February 2014, Vienna

Anticipated attendance: 2000 delegates
Delegate profile: Endocrinologists, doctors, nurses and allied medical professionals with a focus on diabetes
Conference code: ATTD14
Meeting website: www2.kenes.com/attd/pages/home.aspx

Exhibition overview

The International Conference on Advanced Technologies & Treatments for Diabetes (ATTD) aims to deliver cutting edge research and analysis on the latest developments in diabetes-related technology. It will include presentations and discussions on the developments in insulin analogues and delivery systems, insulin pumps, glucose sensors, closed-loop systems devices for diabetic prevention, artificial pancreas, technologies for treating obesity and more. An international audience of researchers and clinicians from the fields of diabetes, endocrinology and metabolism, diabetes technology developers as well as general and family medicine practitioners is expected to attend.
