Exhibition overview

The ECNP Congress is Europe's leading forum for exchange and dissemination of interdisciplinary research on the brain and disorders of the brain. The participants that attend the ECNP Congresses are scientists and clinicians working in neuropsychopharmacology and related disciplines coming from an average of 95 countries around the world. It is an opportunity for all to exchange ideas on the latest advancements, discuss research and treatment outcome and interact within the field of neuropsychopharmacology.

Exhibition details

The [programme](#) will include the usual Keynote and Plenary Lectures; Symposia which are divided into five tracks:

Clinical Treatment track: the latest in therapies and clinical applications

For: Clinicians and clinical researchers

Clinical Research track: cutting-edge discoveries in clinical neuroscience

For: Clinicians, clinical researchers and translational neuroscientists

Translational Research track: the latest translational and cross-disciplinary research

For: Clinical researchers, basic and translational neuroscientists

Preclinical Research track: Break-through research in basic neuroscience

For: Basic and translational neuroscientists

Educational track: Up-to-date insights and practice-oriented education

For: Active clinicians

Posters will be grouped under the following topics:

Basic and clinical neuroscience
Mood disorders and treatment
Psychotic disorders and treatment
Anxiety disorders, OCD, stress related disorders and treatment
Dementia and neurological disorders
Addiction
