Meeting

website: <http://www.europaediatrics2015.org/>

Exhibition address:

Fortezza da Basso

Florence

Italy

Exhibition overview

The 7th Europaediatrics Congress of the European Paediatric Association (EPA) and the Union of National European Paediatric Societies and Associations (UNEPSA), will be held in Florence, Italy on 13th-16th May, 2015.

The programme for the congress, which is the highlight of the activities of the EPA/UNEPSA is being developed by the EuroPaediatrics 2015 Scientific Committee. This 7th biennial meeting will have an innovative format, with a mixture of plenary presentations by international child health experts and guideline sessions led by the European specialist societies which will give general paediatricians an opportunity to bring themselves up to date with the best evidence-based practice. The theme of sharing good practice will be continued in the more interactive personal practice sessions where leaders in their fields will present their approaches to the management of important paediatric conditions.

It is crucial to underline the importance of the Europaediatrics2015: this event will be pivotal since the most prominent paediatricians will be gathering in Florence to share their knowledge and their competences. The theme of the conference will be “Learning across Borders and Languages”, a kind of educational “Médecins sans Frontières”.

Exhibition details
