Meeting

website: [/www.eshre.eu/annual_meeting/page.aspx/11](http://www.eshre.eu/annual_meeting/page.aspx/11)

Exhibition address:

Munich - details to follow

Exhibition overview

The main aim of the European Society of Human Reproduction and Embryology (ESHRE) is to promote interest in, and understanding of, reproductive biology and medicine. It does this through facilitating research and subsequent dissemination of research findings in human reproduction and embryology to the general public, scientists, clinicians and patient associations. It also works to inform politicians and policy makers throughout Europe. ESHRE aims to promote improvements in clinical practice through organizing teaching, training and continuing medical education activities, developing and maintaining data registries and implementing methods to improve safety and quality assurance in clinical and laboratory procedures.
