Exhibition overview

The 25th scientific meeting of the European Society of Hypertension (ESH) on “Hypertension and Cardiovascular Protection”, will be held in Milan on June 12-15, 2015.

In line with the previous ESH meetings a large portion of the scientific programme will be devoted to presentations of abstracts on original scientific data, with a selection made via the assessment of several expert European reviewers. This is justified by the large amount of research on hypertension and related cardiovascular diseases which goes on in Europe, as well as elsewhere in the world, and finds its appropriate forum in the European Hypertension Meetings.
