Exhibition overview

The **International Osteoporosis Foundation (IOF)** and the **European Society for Clinical and Economic Aspects of Osteoporosis and Osteoarthritis (ESCEO)** have worked in partnership for several years to develop a European meeting programme for healthcare professionals, researchers and young scientists.

IOFs a registered not-for-profit, non-governmental foundation based in Switzerland. It functions as a global alliance of patient societies, research organizations, healthcare professionals and international companies working to promote bone, muscle and joint health.

ESCEO is a not-for-profit organization, dedicated to a close interaction between clinical scientists dealing with bone, joint and muscle disorder, pharmaceutical industry developing new compounds in this field, regulators responsible for the registration of such drugs and health policy makers, to integrate the management of Osteoporosis and Osteoarthritis within the comprehensive perspective of health resources use. The objective of ESCEO is to provide practitioners with the latest clinical and economic information.

Exhibition details
