Exhibition overview

The International Federation for the Surgery of Obesity and Metabolic Disorders will continue to focus on the newly growing discipline of metabolic surgery, endoluminal and mini invasive approaches as well as the concept of team management. They will develop a scientific program of the highest standard covering global perspectives of this ever-evolving discipline that attends to our modern world epidemic that Obesity and Metabolic Disorders have come to represent. The organizing Committee plan a green meeting which incorporates environmental considerations one aspect of sustainability, that seeks to balance the social, environmental, and economic concerns against business needs. Save the date and we are looking forward to seeing you in Vienna 2015.
