Paris France

Exhibition overview

The European Society for Paediatric Endocrinology (ESPE) is a truly international organisation aiming to promote the highest levels of knowledge, research, education and clinical practice of paediatric endocrinology and metabolism throughout the world. Paediatric endocrinology is a specialty of children's medicine (paediatrics) caring for babies, children and adolescents with growth, puberty, sexual development problems and other disorders of the hormone producing glands of the body. These include diabetes, thyroid and adrenal gland problems, early and late puberty, and growth hormone deficiency.
